

**Medical Clearance For Hearing Aid**

I have been advised by Northwest Florida ENT that my best hearing health interest would be served if I had a medical evaluation by a physician specializing in disorders of the ear (or by a duly licensed physician if no such ear specialist is available) before I purchase a hearing aid.

A. Is the person being fit under 18 years of age? Yes  No  If the person being fitted is under 18 years of age, has that person been examined by an otolaryngologist for recommendation within 6 months prior to fitting? Yes  No  No person under 18 years of age may be fitted without receipt of such a recommendation in writing.

B. If the person being fitted is 18 years of age or older, he or she should be examined and provide us a written statement signed by a licensed physician stating that the hearing loss has been medically evaluated within the preceding 6 months and that the patient may be a candidate for a hearing aid(s). Patient has provided statement suggested above. Yes  No  Physician: \_\_\_\_\_

C: Persons age 18 or older who do not provide a physician's statement must sign below. "I have been advised to obtain a written statement by a licensed physician stating that my hearing loss has been medically evaluated within the preceding 6 months and that I may be a candidate for a hearing aid(s). I have elected not to obtain such a statement notwithstanding the audiologist's recommendation that I do so. The audiologist has not encouraged me to waive the medical examination and it is my own decision."
